Crowdsourcing (2015) is a specific sourcing model in which organizations use contributions from Internet users to obtain needed services or ideas.
IS THIS THE BOSTON BOMBER?

Boston Marathon Bombing, 2013
to all my boston homies, please go through these photos....these are the mother fuckers who bombed our city. look at their faces, memorize them. let's find these bastards and put them away.

4chan ThinkTank - Imgur
imgur.com

Imagur is used to share photos with social networks and online communities, and has the funniest pictures from all over the Internet.

FindBostomBombers is a discussion forum, not a journalistic media outlet. We do not strive, nor pretend, to release journalist-quality content for the sake of informing the public.

The harsh reality is that discussion requires looking at all possibilities. But to equate discussion with an unambiguous implication of guilt is presumptive and hyperbolic.

BAG, NOT A BACKPACK WITH A BOMB

Not sure if there are any more photos of these guys, but the person who took it had to speak with the FBI today.

Boylin & Exeter (approx 30min before explosion) - “I shot this on my Go Pro camera about 30 minutes before first explosion. The intersection by post”

The two military guys are National Guard CST. These are the photos.

Friend just posted this photo of the finish line above Facebook. (Had him submit it to the police)

Does anyone remember Richard Jewell?

Raw Pic Dump. Most of the pictures are uncirculated.
BAG MEN

Feds seek these two pictured at Boston
- Enable location access to your photos
- Face North
- Position the phone parallel to the sky
- Take one vertical picture
- Upload to cc.olab.io or email to pictureSky2015@gmail.com

Picture Sky (Brooklyn), Karolina Sobecka
We give instructions to anonymous workers to realize webcam performances. The performers are hired through crowdsourcing services, so we do not know who they are, where they are, or even their motivations. The resulting videos are then dispersed on obscure, peripheral or forgotten social networks around the world, in Cambodia, Russia, China, South Africa...

The Middle Finger Response

Crowd workers of the world, united in a gesture.

Guido Segni, 2013

The Middle Finger Response is a curated selection of 300+ spontaneous self portraits of cloud workers I commissioned travelling around one of the most representative crowdsourcing platform: Amazon Mechanical Turk.

All the workers in the selection have been paid about 0.55 in order to take a webcam picture of themselves showing their face, their context and, ultimately, their middle finger response.

It’s just a cynical but sincere attempt to establish a dialogue between the artist, the public and the crowd dispersed through the new frontiers of leisure, labour and exploitation in the age of the big cloud.

ASSIGNMENTS:

44. Make a "LTYLM" assignment.
43. Make an exhibition of the art in your parent's house.
42. List five events from 1984.
41. Document your bald spot.
40. Heal yourself.
39. Take a picture of your parents kissing.
38. Act out someone else's argument.
37. Write down a recent argument.
36. Grow a garden in an unexpected spot.
35. Ask your family to describe what you do.
34. Make a protest sign and protest.

Assignment #39
Take a picture of your parents kissing.

Take a picture of your parents kissing (or at least hugging). Do not send us an older picture of your parents, we are looking for a new picture taken specifically for this assignment.

DOCUMENTATION>

Send in the picture and your parents' first names to be used as the title for the picture, like "Jennifer and Ricardo."
Museum Visitor Wallet Photos, Harrell Fletcher and Jon Rubin
The Sheep Market, Aaron Koblin, 2008

The Sheep Market is a collection of 10,000 sheep created by workers on Amazon’s Mechanical Turk. Each worker was paid $0.02 (US) to “draw a sheep facing left.”
The Johnny Cash Project, Aaron Koblin and Chris Milk, 2010
Fluttering Frame, Exonemo, 2013
