

Find My iPhone  
Terms and Conditions (Instructions)

Cancel

## Overview

So you and your crew attended the Oscars, but the problem is no electronics are allowed in the building. The ceremony was great, but now all your devices are stacked together. Since you're all obviously really successful and wealthy and trendy, you all own strictly and exclusively iPhones. The problem is they all look exactly the same and you're not so sure which one exactly is yours. Now you have to go through the trouble of finding it!

Use the clues given to collect your device.

## Objective

Collect your phone before anyone claims theirs!

## Rules

- 1) Draw a Phone Owner card from the Phone Owner card pile and read the description of your phone. These will indicate what apps you have or don't have, and should help you figure out which iPhone is yours.
- 2) Once you finish reading your Phone Owner card, go crazy in the iPhone pile! It's gonna be war, since everyone else is trying to locate their phones at the same time, but hey, you gotta do what you gotta do for those damn iPhones right?
- 3) If you have found your phone, good job. You may now reward yourself by giving yourself a pat on the back. Or you can go on a shopping spree at the nearest Apple store.

**I have read and agree to these terms and conditions.**
